RECEIVED
U.S. EPA REGION V
WASTE MANAGEMENT DIVISION
OFFICE OF THE DIRECTOR

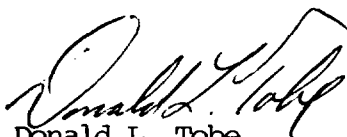

Dear Ms. Mancos:

Our factory here at Kinro, Inc. Dayton, Ohio is a light metal fabricating and window assembly plant servicing the mobile home industry. To the best of my knowledge this plant has never generated nor disposed of hazardous wastes and/ or substances.

During our busy period, April through September we generate and dispose of (I.W.D.) Approximately 126 cu. yds. of waste material per month. This material consists basicly of wood, cardboard, paper products, fiberglass screen cloth, and a small amount of glass and aluminum scrap.

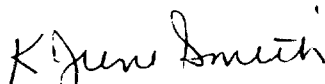

I apologize for my delay in responding to your earlier request for our involvement at the Moraine Landfill. We at that time were under the impression that this request concerned only those companies that dealt with hazardous wastes and substances.

Sincerely:
KINRO, INC.

Donald L. Tobe
Plant Manager
